Transitioning into tax payers instead of tax burdens!

Dear Clark:

We make critical decisions every day. Most of us have made bad choices that we regret. For most of us, that unfortunate decision was just a valuable life lesson. But for thousands of Arizonans, the bad choice they made cost them years of their lives and they ended up in prison.

Once inside, they can keep making bad decisions or start working towards a different kind of life for themselves and their families. But to get on the right path, they need opportunities and that's what ACI is all about!

When you buy [products](#) from ACI or partner with us to hire inmates during or after their sentences, you are helping us provide meaningful opportunities. Learning new job skills, or simply learning the many soft skills that employers look for in staff, like professional communications and critical decision making, or simply showing up on time for work each day, helps inmates start to see that their future is full of possibilities.

Seeing the real impact that ACI programs have on real lives, energizes the entire staff to work to create more opportunities for more inmates.

Sometimes people make bad choices because they feel they have no other options. By providing positive options, that lead to positive results, we can help those 95% of inmates currently incarcerated in Arizona who will someday be released, rejoin our communities successfully.

Thanks for doing business with us.

Best,

ACI Sales Team
